

Enduro Shield

UP
TO **90% LESS CLEANING**

EASY CLEAN PROTECTIVE COATINGS
GLASS | TILES & GROUT

SHOWER DOORS:

Save time and money with EnduroShield®, the revolutionary non-stick coating ideal for all glass, especially shower doors. The once only factory application makes grime, dirt, and soap scum easier to clean.

Reduces cleaning time by up to 90%

Factory applied to new glass comes with a 10 year performance warranty.

Consumer strength formula DIY kits are available and come with a 3 year warranty.

Repels soap scum and grime

- No revitalizer products required
- Protects against etching and staining from:
 - hard water
 - lime scale
 - soap scum
- Works on all glass including mirrors, railings, glass tables, and more!

GLASS FENCING & RAILING:

EnduroShield® is perfect for glass fencing and railings. The invisible coating protects against corrosion and etching from contaminants including salt, bird droppings, and pollution.

Untreated glass is porous, and as a result it absorbs pollution and contaminants which can cause deterioration and discoloration. The deterioration of the surface makes cleaning more difficult.

EnduroShield seals the porosity of the glass, reducing the time and frequency of required cleaning.

WINDOWS & DOORS:

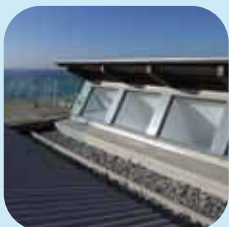

EnduroShield® is ideal for use on glass windows and doors. Application makes dirt and grime easier to clean, reducing cleaning time by up to 90%.

Protect against corrosion & etching

It will also protect against corrosion and etching which can occur in coastal environments where the glass is exposed to salt air or water spray.

- Glass stays cleaner for longer, in between cleans.
- Suitable for new and existing surfaces
- Coating is UV stable
- Prevents against etching and corrosion from sea salts, dirt and contaminants
- Makes fingerprints easier to remove

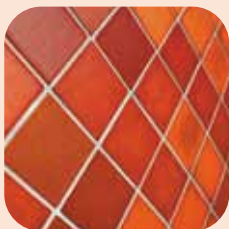

Maintain the look of your home

TILES & GROUT:

EnduroShield Home DIY for tiles and grout can be applied to all ceramic, vitrified and porcelain surfaces. Tiles, toilets, and sinks are perfect places to apply the coating. Ideal for the shower enclosure or tiles surrounding the tub, the superior protection reduces the build-up of mold and harmful bacteria, helping to promote a germ free environment.

Suitable for new
and old surfaces

EnduroShield Home DIY kits come with a 3 year warranty on all new and existing tiles & grout.

Reduces mold
& algae build up

BACKSPLASHES

EnduroShield® is perfect for use on colored glass or tiled backsplashes in the kitchen. Cleaning up food or cooking oils is a breeze!

PRODUCT OPTIONS:

OPTION 1: ENDUROSHIELD - FACTORY APPLIED

The professional strength glass coating is a factory applied product that creates a permanent* bond with the glass, and comes with a 10-year performance warranty.

The largest glass fabricators and manufacturers in North America and around the world rely on EnduroShield as the industry-leading solution. To order, simply request EnduroShield be factory applied to your new glass.

WHY ENDUROSHIELD?

EnduroShield® leads the industry in both water and oil repellent coatings, which provides maximum protection against staining. When factory applied, EnduroShield provides a true performance warranty, that it will remain water repellent with a bead angle greater than 70 degrees, which we accept as a minimum measurement for an easy to clean surface.

Some factory applied coatings claim they will last the distance, but only warrant that they will remain more water

repellent than untreated glass. Untreated glass is measured at a low angle of approximately 15 degrees. These coatings therefore do not hold themselves to a minimum water repellency measurement.

These coatings often require unrealistic daily cleaning tasks to be performed or revitalizer products to be purchased in order to maintain the coating and the warranty. ***This is why*** not all products and warranties are the same.

These are some of the many reasons why the largest glass providers choose to offer EnduroShield to their customers.

For more information about the measurable difference you will obtain with EnduroShield, visit our website and click the Easy-Clean tab.

TESTING & CERTIFICATION

EnduroShield for glass has been awarded certification from TÜV Rheinland Germany for both durability and easy to clean functionality. The durability test was carried out to simulate a lifetime of 10 Years on interior and exterior use. A certified product is one that has passed extensive testing carried out by TÜV Rheinland Group, including safety and quality.

TÜV's testing provides our customers and the general public quantifiable evidence of performance from one of the world's most prestigious independent international testing and safety agencies.

EnduroShield

*Makes
Cleaning
a Breeze*

EnduroShield® is the revolutionary, simple to apply, invisible coating that repels water, soap scum, and grime, allowing you easier cleaning, less often.
